ABOUT

Kalpatharu School of Nursing was established in the year 2004. It was started with the aim of educating and training personnel to look after the health care needs and to provide nursing care in the best way possible.

Nursing is a profession within the health care sector focused on the care of individuals, families, and communities so they may attain, maintain, or recover optimal health and quality of life.

Nursing care is a holistic approach towards the individual's physical, emotional, psychological, intellectual, social and spiritual needs. The profession combines physical science, social science, nursing theory, and technology in caring for those individuals.

Nursing education provides opportunities for nurses to work all over the world in clinical settings. It helps them to build a good career and a successful future.
